WHY DO I FEEL THIS WAY?

A STORY, WHICH IS NOT ACTUALLY A STORY

Three of my assistants belong to the blood type A. They're also Geminians.

Two out of the three of them share the same birthday! Even mom is a blood type A-Geminian! However, her birthday falls on a different day.

? ? ? ? ?

I guess these people attract each other.

Even cats have blood groupings. The categories are somewhat different though.
